

Jersey City Real Estate

Hello and welcome to my site. I wanted this site to be more than your typical Real Estate agent's website. I wanted to create a space where a person can become familiar with Jersey City and the surrounding communities, and to create a directory of the local buildings that would include what features each of these buildings offered as well as price points and information on points of interest in that particular area.

Here you will also find information on single family properties, multi-family properties, condos, townhouses, new construction, luxury apartments in Jersey City and its surroundings, including Bayonne, Edgewater, Guttenberg, Hoboken, North Bergen, Union City, Weehawken and West New York.

Jersey City and Beyond gives you the advantage in your search for a home by keeping you informed of the latest properties on the market. You will also find valuable resources such as mortgage calculators and links to help you find financing so that your home buying experience is a smooth and pleasurable one.

Jersey City and Beyond is also the right place to sell your home. My expertise of the local market will help you to find the most appropriate price for your home. With tools like virtual tours, online and targeted marketing, open houses and more you can rest assured that your property will get all the exposure needed for an efficient and rewarding sale.
